# INVITATION FOR EXPRESSION OF INTEREST (EOI) FOR MINING OF LEGACY WASTE AND RECOVERY OF LAND AT DADDU MAJRA DUMPING GROUND, CHANDIGARH

## 1. Site location and area:

The waste disposal site is located in village Daddu Majra which is in the south west quarters of Chandigarh, close to Sector 25 and Sector 38. It is bound by Dakshin Marg on the east, Maloya Colony Road on the north and Daddu Majra Colony on the west

and south. Across the Maloya Colony Road a small seasonal stream 'Patiala Ki Rao' flows along the northern side of the site. Waste from the city is brought to the site through the Dakshin Marg.

Total area of the land under the possession of Municipal Corporation of Chandigarh is about 45 acres. However, out of this about 20 acres is occupied with 10m to 12m high open solid waste dump to be mined to reclaim the land.

## **2. Objectives:**

- To dispose of around 0.5 Million MT existing waste from Daddu Majra Dumping Ground (DMDG) through scientific mining and processing by way of deploying suitable and adequate number of heavy earth moving machinery, equipment, vehicles and treatment technology, if any.
- Minimise the nuisance to the community of Daddu Majra on account of the fugitive emission and spontaneous combustion.
- Reclaim the entire land blocked with the dump for future use.

## **3. Deliverables:**

Interested legal entities i.e. Company, Consortium/Joint Venture, Partnership Firms, Limited Liability Partnership etc. are invited to submit their Expression of Interest as per the following:

- i. Covering letter on the Applicant's letterhead.
- ii. Contact information of the Applicant with Email Address, Phone Number, Postal Address of the head office and all branch offices along with name of the authorized representative.
- iii. Organization profile including details of incorporation, strength, and constitution.
- iv. Names and designation of the heads of the organization and institutional structure along with Audited Financial statements for the last three financial years.
- v. Details for the Relevant Experience including Client, Location, Technology Used, Capital and Operational Expenditure
  - a. The similar completed projects
  - b. The Similar ongoing projects

## **4. Implementation & Methodology**

A brief description of various methods/ technologies available for mining of legacy waste and recovery of land in conformity with various Government guidelines/rules. The proposal should have appropriate solution for mining at project site along with tentative cost.

Based on the detailed proposals to set up a processing facility to dispose of about 0.5 Million MT legacy waste from the DMDG, the entities shall be invited to make a presentation on their detailed proposals to CSCL in its office at Chandigarh on the date and time to be notified later.
